

DSP531II

Ceiling Speaker

Features

- Application: public address and background music playback
- High-quality clear sound
- Adopt high-quality engineering plastics
- Unique technique of cone, moisture-proof, high sensitivity
- Support different installment methods (hanging, clip, movable clip), easy to install
- Exquisite and durable design with fine circular hole, able to integrate with any indoor background

Description

DSP531II is a ceiling speaker which could be customized to be waterproof. There are three installation methods: screw ring, spring clamp and hanging rack which are applicable to DSP531IIA, DSP531IIB and DSP531IIC respectively.

Specification

Model	DSP531II
Speaker Unit	3"×1
Rated Power	10W
Working voltage	70/100V
Impedance	8 Ω
Sensitivity (1m, 1W)	85dB±2dB
Maximum SPL	95dB±2dB
Frequency response	130Hz~20kHz
Dimension (H×W×D)	Φ137×115mm
Wight	1.04 kg
