

DSP570

5.25" Coaxial Landscape Speaker

Description

The DSP570 is a 5.25" coaxial landscape speaker designed for outdoor background music and sound reinforcement applications. Featuring a coaxial driver configuration with a 5.25" woofer and 1" tweeter, it delivers balanced full-range sound with clear highs and powerful lows.

With a weather-resistant enclosure and a natural landscape-oriented design, the speaker blends seamlessly into various outdoor environments such as gardens, parks, resorts, and commercial landscapes. Supporting both 100V line and 8Ω low-impedance input, it provides flexible installation options for different audio systems.

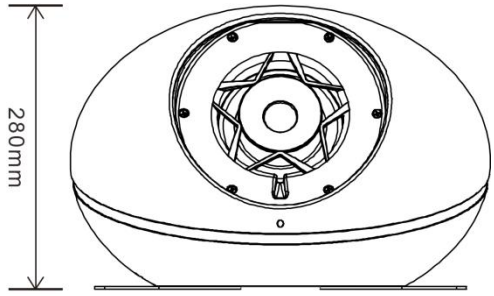

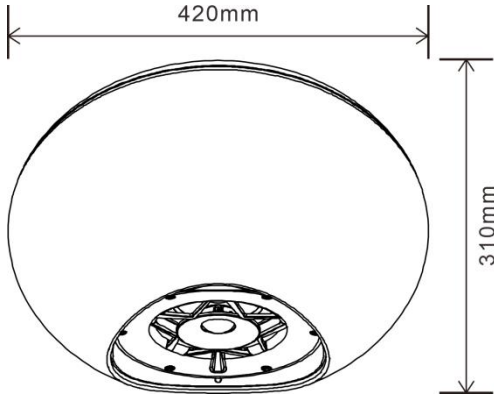

Features

- **Coaxial Two-Way Design:** Equipped with a 5.25" woofer and 1" tweeter for smooth and balanced full-range sound reproduction.
- **High-Quality Sound Performance:** Provides clear vocals, detailed highs, and rich low-frequency response for outdoor audio applications.
- **Flexible Input Options:** Supports both 100V line and 8Ω low-impedance connections for versatile system integration.
- **Landscape-Friendly Design:** The compact and natural appearance allows the speaker to blend into outdoor environments.
- **Wide Application Range:** Ideal for gardens, parks, resorts, scenic areas, commercial spaces, and other outdoor locations.

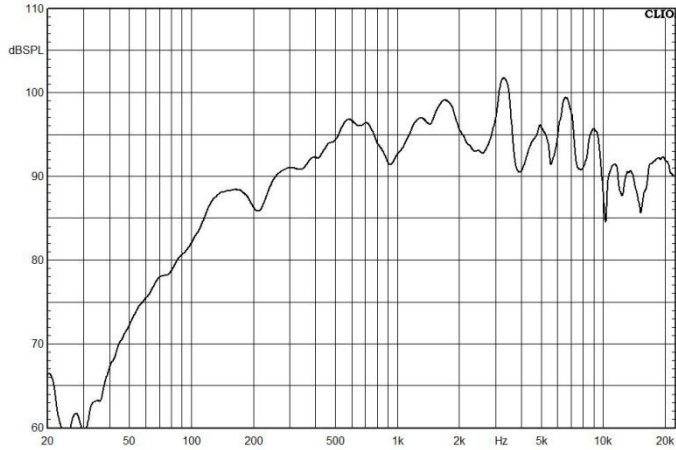

Specifications

Model		DSP570
Driver Unit		5.25"×1, 1"×1
Rated Power		40W
Input	Constant Voltage	100V
	Constant Impedance	8Ω
Frequency Response		120Hz–18kHz
Sensitivity (1m, 1W)		92dB
Maximum SPL		108dB
Dimensions		280×420×310 mm
Weight		4.9 kg
